

ANKUSH CHOUDHARY

Bengaluru, Karnatka 560037 • +919729710933 • ankushchoudhary.164@gmail.com • WWW: [About Me](#)

SUMMARY

Associate Consultant specializing in PL/SQL development and backend engineering at Oracle Financial Services Software, with hands-on experience in building, optimizing, and deploying financial solutions. Experienced in enhancing banking systems like FLEXCUBE, and integrating transactional workflows to support critical operations. Skilled in Java, Spring Boot, and SQL, with a strong grasp of system architecture and client-specific customization. Adept at collaborating with cross-functional teams, resolving production issues, and delivering high-quality software in fast-paced environments. Passionate about continuous improvement, scalable engineering, and bridging technology with impactful financial services.

EXPERIENCE

Associate Consultant, 08/2023 - Current

Oracle Financial Services Software - Bengaluru, IN

- **Resolved** bugs and issues during FLEXCUBE (new functionalities) implementation to ensure smooth and successful system deployment.
- **Contributed** to disbursement functionality and **integrated** messages between FLEXCUBE and JD SPB for debenture processing.
- **Managed** time and resources effectively to ensure the timely completion of tasks and adherence to project deadlines.
- **Worked** collaboratively within team environments to boost productivity and foster a supportive workplace culture.
- **Implemented** and customized banking solutions for agricultural products, meeting specific client requirements.
- **Streamlined** PL/SQL procedures for efficient settlement message generation in OLTP systems.
- **Collaborated** with clients to gather requirements and deliver tailored, value-driven solutions.
- **Conducted** thorough testing to ensure the reliability and accuracy of system functionalities.

PROJECTS

Job Application Tracker

Tech Stack: React, Spring Boot, FastAPI, MySQL, Tailwind CSS, Framer Motion

- Developed a full-stack application for managing job applications with features such as login/register, job tracking, and resume uploads.
- Implemented secure authentication using JWT and Spring Security.
- Built a FastAPI microservice for parsing resumes (PDF) using AI models.
- Designed a responsive UI with Tailwind CSS and Framer Motion.

Travel Planner App (Group Project)

Tech Stack: Android (Java/Kotlin)

- Led a team to build a mobile app for comparing flights, hotels, and rentals.

SKILLS

- **Programming and development:** Java programming, PL/SQL development, web services integration, Oracle database, and SQL
- **Computer science fundamentals:** data structures and algorithms, problem solving
- **Tools and methodologies:** version control (Git), API integration, quality assurance
- **Domain knowledge:** banking solutions
- **Soft skills:** team collaboration

TECHNICAL SKILLS

- **Programming languages:** Java, JavaScript (intermediate)
- **Frameworks and technologies:** Spring Boot (intermediate), REST APIs
- **Databases:** MySQL, PL/SQL
- **Web technologies:** HTML, XML
- **Version control and tools:** Git
- **Operating systems:** Linux (basic commands)

EDUCATION

01/2019

HIGH SCHOOL DIPLOMA
SEHWAG INTERNATIONAL
SCHOOL, JHAJJAR

01/2023

BACHELOR OF TECHNOLOGY
DEHRADUN INSTITUTE OF
TECHNOLOGY, DEHRADUN, INDIA

CERTIFICATIONS

- Designed the user interface and coordinated integration using Android Studio.

Mini Projects (College)

- **Weather App (Java):** Real-time weather data display using public JSON APIs.
- **Tic-Tac-Toe (Kotlin):** Interactive two-player mobile game with a clean UI.
- **News App (Java):** Headline and image fetcher using Retrofit and Glide.
